Video conferencing

With the Mustek Web Cameras, users can make video, photo/ audio and data conferencing, plus exchange and share ideas, by sending text messages and transferring files.

Digital imaging

Mustek Web Cameras are outstanding and specifically designed to be versatile and easy to use. Users can quickly import images to the favorite desktop publishing application or capture web-ready images for use on the Internet. The images have a maximum resolution of 640 x 480 dpi.

Full speed USB interface

It is easy as just plug the camera connection cord to the USB port in the PC. With its USB bus connection, Mustek Video Cameras capture, enhance or edit, and save images without inserting an extra video capture cards. With your sound capturing system, the complete video/audio system setup the real-time Internet meeting for you visually.

TWAIN compliant

With its full TWAIN compliance, the Mustek video cameras allow you to transfer images directly into any TWAIN-supported software application.

Image-Editing

The complete package includes an image-editing software with easy-to-use visual tools. Step beyond conventional pictures by enhancing your scanned images into spectacular, colorful displays. Save your images in JPEG or GIF file formats for posting on the Internet.

Reliability

Each camera features a standard warranty, strong technical support and are manufactured under strict ISO 9000 guidelines.

About Mustek

Mustek was established in 1988 and made the very first and unique hand-held scanner with a PCMCIA interface for PCs and Notebooks. This innovative and dynamic scanner pioneer has matured and diversified their products offerings from scanners to digital still cameras, LCD projectors, DVD players and UPS systems for the global market. All production follows ISO 9001, 9002 regulation and adheres to most international industry standard. They serve the IT community with headquarter in Taiwan and offices in the USA, China, Japan and Germany.
